

## Launching and Trailer storage

Dinghies can be launched at the west end of Pillar Point Harbor via the HMBYC ramp, or at the east end of Pillar Point Harbor via the public ramp.

To launch at HMBYC, vehicles should temporarily park by the Club ramp to unload, and then proceed to street park on Princeton Ave or Vassar Ave. The Club can accommodate trailer storage on-site, and overflow trailer parking may be available next door (depending on event).

To launch at the public ramp, vehicles should turn onto Capistrano Ave from Highway 1 and follow signs to the launch ramp. Parking your vehicle there requires a \$15 fee. During certain events, participants can be ferried from the Club to the ramp so the participant's vehicle can be parked near HMBYC, and then the fee need not be paid.
